

# Ai for Good

Programs & Offerings

# Empowering Lives Through Technology

At The Victor Pineda Foundation, we harness the **transformative power of Artificial Intelligence** to create a more inclusive world, not just for the 1.2 billion people living with disabilities, but for everyone.

Our AI for Good initiatives now encompass a **broader spectrum**, focusing on **elevating representation**, embracing **neurodiversity**, fostering **inclusive leadership**, and applying **practical AI solutions** to enhance **accessibility for all**.

We invite partnerships with leading AI companies to collaborate on impactful projects that intertwine technology, rights, and universal accessibility.

# Explore Our Key Projects

1

AI and Inclusive  
**Leadership Certificate**  
& Online **Training**  
**Program**

2

**It's Our Story:** Disability,  
Rights, Justice and  
Culture GPT

3

The **AI Playbook** for  
Inclusive and Accessible  
Cities

# 1

## AI and Inclusive Leadership Certificate & Online Training Program

**Audience:** Educators, technology professionals, policy makers, and advocates for disability rights and diversity.

**Outcome:** This program enables participants to gain comprehensive knowledge and skills in integrating inclusive AI solutions across various sectors, with a focus on disability inclusion, neurodiversity, and fostering inclusive leadership. It aims to create a knowledgeable community that champions AI-driven disability inclusion, while also embracing the wider aspects of diversity and universal inclusion.

# 2

## **It's Our Story:** Disability, Rights, Justice and Culture GPT

---

**Audience:** Researchers, educators, policy makers, and the general public.

**Outcome:** This generative AI project provides a rich, diverse perspective of the experiences of Americans with disabilities and those with neurodiverse conditions, fostering understanding, empathy, and cultural awareness. It serves as a valuable resource for policy formulation, educational content, and promoting a more inclusive society for all.

# 3

## The **AI Playbook** for **Inclusive** and **Accessible Cities**

---

**Audience:** City planners, urban developers, policy makers, and accessibility advocates.

**Outcome:** This playbook serves as a comprehensive guide for developing urban environments that are inclusive and accessible to everyone, including those with disabilities and neurodiverse individuals. It offers AI-driven strategies and best practices for creating cities that are thoughtfully designed for universal accessibility and inclusivity.

# Join Us in Making a Difference

We are actively seeking **partnerships with AI innovators**, industry leaders, and advocates for universal inclusion to further these initiatives. Your collaboration can significantly contribute to **building a more inclusive future for all**.

Contact Us for **partnership opportunities** and more information on how you can be part of these transformative projects.

The Victor Pineda Foundation:  
Empowering Individuals, Transforming  
Communities through Inclusive  
Innovation.
